

19 April 1982

MEMORANDUM FOR: Chief, Planning and Resources Staff, DDS&T

FROM: [REDACTED]

25X1

Chief, Executive and Planning Staff, FBIS

SUBJECT: Reprogramming Approval [REDACTED]

25X1

1. This memorandum requests permission to reprogram [REDACTED] from 6 bureau FAN's to Key West Bureau to provide for expansion of the bureau building. The bureau, which monitors Cuban mediumwave domestic radio broadcasts and television transmissions, as well as selected radio broadcasts from Central America and elsewhere in the Caribbean, was built to house a staff of four. The addition in recent years of two extra staff personnel plus equipment to monitor the press transmissions of the Caribbean News Agency and the Mexican Notimex agency has resulted in extremely crowded operating conditions at the bureau. This situation becomes even more aggravated during important events in Cuba--such as party congresses--when TDY assistance has to be provided to the bureau to help process the large volume of material monitored. The [REDACTED] will provide for the addition of the approximately 1,200 square feet of office space needed for the staff and the bureau's equipment. [REDACTED]
